

*Results-driven **Senior Software Engineer** with proven success in delivering **high-impact mobile and web applications**. Skilled in leading teams to ship **5+ production apps** with **50k+ downloads**, driving **50%+ productivity gains** through shared code initiatives, and enabling **rapid delivery cadences** of up to 10 development builds and 2 live releases in a single day. Experienced in building **mission-critical systems** such as a government initiative program (**reduced card issuance from days to seconds**) and a COVID border management platform (**delivered in one week, handling thousands of daily requests**). Adept at aligning technology with business goals through modern tooling, process innovation, and cross-functional collaboration.*

EXPERIENCE

- **Ukuya Sdn. Bhd.** Petaling Jaya, Selangor
Head Mobile Division Mar 2020 - Present
 - Led a team of **7 Flutter developers**, delivering **5+ production apps** to Google Play and iOS App Store with **50k+ total downloads**.
 - Spearheaded a **shared code initiative**, cutting **50%+ repetitive code** and significantly boosting developer productivity.
 - Established **standard operating procedures** that enabled a reliable delivery cadence, averaging **3 development builds and 1 live release per week**, with peak output of **10 development builds and 2 live builds in a single day**.
 - Drove adoption of **modern tooling**, including **Flutter on Web, CI/CD pipelines**, and **E2E testing with Playwright**, strengthening release reliability and accelerating delivery cycles.
- **Ukuya Sdn. Bhd.** Petaling Jaya, Selangor
Senior Flutter Developer Jan 2020 - Mar 2020
 - Developed a VueJS front-end system for a government initiative membership program, integrated with back-end services and a local .NET-based print service. **Reduced membership card printing time from days/hours to seconds**, dramatically **improving efficiency** and **public service delivery**.
 - Delivered a state border management system within **one week** during COVID, providing authorities with a rapid and effective tool to **enforce travel restrictions** and **manage thousands of daily user requests** during peak periods.
- **Urban Mobility Tech PLT** Kuala Lumpur
Senior .NET Engineer Jul 2019 - Jan 2020
 - Contributed to the development of a nationwide fuel retail management and payment system using ASP.NET framework for a major oil & gas company, **supporting stakeholders** from upper management to station cashiers and end-users.
 - Enhanced product catalog by implementing hierarchical (parent-child) item categorization, **improving inventory organization** and **simplifying station-level operations**.
 - Integrated promotions and discount mechanisms into the platform, enabling station operators to run targeted campaigns.
- **Multimedia University** Ayer Keroh, Melaka
Research Assistant Dec 2015 - Apr 2018
 - Developed a simulation tool for mobile radio signal propagation using WPF on .NET Framework. **Enhanced accuracy of indoor/outdoor wireless modelling** through advanced ray-tracing physics (reflection, refraction), leading to **improved reliability in academic research and publications on mobile communications**.
 - Designed and built an autonomous robot with Arduino Mega 2560 and ultrasonic sensors to perform navigation and 3D mapping in confined spaces. Delivered a fully functional prototype with **real-time data transfer** via XBee modules and a WPF-based visualization tool, enabling researchers to generate detailed environmental maps for robotics studies.
 - Built a real-time sentiment analysis system for Twitter data using .NET Core and Python Flask. Automated the capture, classification, and indexing of live tweets into Elasticsearch, providing researchers with **rapid trend insights** and **supporting data-driven analysis for social media research projects**.

CERTIFICATIONS

- **Microsoft Certified Professional** Aug 2014
Certification Number: E939-6123
- **Microsoft Technology Associate (Software)** Aug 2014
Certification Number: E939-6122
- **Microsoft Technology Associate (Web)** May 2015
Certification Number: F313-1989

PROGRAMMING SKILLS

- **Languages:** Dart, C#, JavaScript, Python **Technologies:** Flutter, ASP.NET, AWS

EDUCATION

- **Multimedia University** Ayer Keroh, Melaka
Foundation in Engineering 2011 – 2012
